# You Can Use Engravings

in your business, just the same as other men use them. Time was when engravings were really too expensive for common use, but they are cheap now

Nine Mushrooms, Weight Four Pounds  
Grown from Pure Culture Spawn

## Make Money in Your Cellar

Mushroom Culture gives greater returns per dollar invested than any other line of horticulture. A very small outlay will start a bed, and the PURE CULTURE METHOD has eliminated risk and possibility of failure as nearly as can be possible. MUSHROOMS ARE A WINTER MONEY MAKER—you need neither greenhouse nor cold frame, just a little space in the cellar will provide you a nice income if you use

### PURE CULTURE SPAWN

Success is assured for every brick is inoculated direct from test tube culture. You can breed to definite variety just as in apples, etc. You can get definite varieties for definite climates, either warm or cold. This is not true of any other spawn. Get Pure Culture Spawn.

Write for our free book, No. 4, it tells all about mushroom growing.

LAMBERT'S PURE CULTURE

# Mushroom

## Spawn

Produced by the new grafting process from selected and prolific specimens, thoroughly acclimatized, has *never failed to run*.

This spawn is made from cultures taken by the *selective* method, recently discovered, from choice specimens of the best varieties of mushrooms known to be thoroughly acclimatized, and selected with special reference to their size, flavor, vigor and prolificness. The elements of uncertainty surrounding the old *chance* method of producing wild spawn (English and French), is therefore eliminated, and a uniform crop of the best marketable variety is thus assured

to the exclusion of all other and inferior fungi.

The importance of this discovery will be realized from the mere statement that, for the first time in the history of mushroom culture, can spawn be offered of a specific variety of mushrooms.

Of the varieties already developed, we are offering pure culture spawn of the *Agaricus Campestris* (white, cream or brown), *A. Arvensis* (cream), and *A. Villaticus* (cream).

FOR SALE BY ALL LEADING SEEDSMEN.
